FAMILY to TABLE Dinner

Bringing the family back together one table at a time.

Fam to Table Dinner

Why Table Dinners?

For years, family dinners were the center piece of the American home. They were a place of connection and vulnerability where busyness was not an invited guest. With the invention of the tv, there came the underwhelming and overpackaged arrival of “TV Dinners.” And over time, families began gathering around the tv instead of the table. So we are doing our part to start trending back to the way things used to be by hosting “Fam to Table” Dinners all across the country. We are bringing the family back together one table at a time. Through the launch of our book in partnership with these dinners, this is one of the ways we are helping to begin Fighting for Family.

Chris & Julie Bennett

AUTHORS

Julie and Chris Bennett are the founders of Welcome Home Lifestyle which exists to create and promote content that celebrates all things family.

Their love for people and entertainment led them to relocate from Oklahoma to Los Angeles in 2018. Both Julie and Chris are graduates of Baylor University and have spent the majority of their 23 years of marriage working in vocational ministry. Through overwhelming challenges they have learned how to fight for the things that matter and devote themselves to helping others do the same.

Alongside their passion for building belonging for others, they love nothing more than beach football, spontaneous road trips, and throwing a good party with their four kids Beau (19), Nate (18), Brooks (14) & Joy (12) and their golden doodle, Champ.

The Bennett's live in Malibu, CA where Chris serves as lead pastor of Vintage Church Malibu.

Why this book...

Fighting For Family

The U.S. Surgeon General recently released an article declaring that America is suffering an “epidemic of loneliness and isolation.” We are more connected to one another through social media, yet there has never been a more disconnected and isolated generation in history. We believe that family is that answer and this book was written to help everyone overcome relational barriers and inspire others towards “the relentless pursuit of building belonging.” And while many have experienced the pain of fighting WITH family, this book exists to discover how and why it’s worthy fighting FOR family.

“In a world living through an epidemic of loneliness and isolation, we wrote this book to help people overcome the barriers to experiencing the power of family.” - Chris and Julie Bennett
